TECHNICAL SKILLS

Languages: Typescript, Javascript, Python

Technologies/Frameworks: React, NextJs, Firebase, Nodejs, Express, Tailwind CSS, HTML, Redux

Developer Tools: Git, MongoDB

EXPERIENCE

Software Engineer | Typescript, NextJs, Redux,Tailwind,Express, MongoDB June 2024 – Present
Kriapay Technologies

- Built a secure, scalable cross-border payment platform for transactions from Nigeria to other African countries, focusing on performance and user experience.
- Developed a responsive frontend with Next.js and Tailwind CSS, integrated secure APIs using Axios, and managed state efficiently with Redux Toolkit.
- Collaborated closely with backend engineers to enhance transaction speed and security, while leading code reviews and enforcing best practices for maintainability.

Software Engineer (Intern) | Typescript, NextJs, Redux, Tailwind Jul 2024 – Nov 2024
Bloocode Technologies

- Developed a Loan Management System for a leading Nigerian bank, streamlining loan processing and boosting operational efficiency.
- with React Query and Redux Toolkit, enabling efficient data handling, caching, and scalable state management,while also building user-friendly interface

Software Engineer (Intern) | Typescript, NextJs, Redux, Tailwind Jul 2023 – Dec 2023
02 Hero Tech

- Built a full-featured service marketplace platform, empowering users to seamlessly discover, request, and offer local services.
- Designed dynamic, responsive UI components with Next.js and Tailwind CSS, and implemented secure auth and CRUD functionality for a smooth user experience.

Software Engineer (Contract) | JavaScript, Jquery, Tailwind June 2022 – Nov 2022
Arone Energies

- Redesigned the company website to elevate user experience and improve navigation, leading to increased user engagement and customer acquisition.
- Implemented modern, responsive UI components using Tailwind CSS and jQuery, giving the site a fresh, accessible look and feel.

PROJECTS

Kriapay | NextJs, TailwindCss, MongoDB, Express, Redux Toolkit, Axios

https://www.kriapay.com/

- Built and maintained a secure, low-cost cross-border payment platform (Kriapay) enabling seamless currency exchange and transfers between Nigeria and Sierra Leone.
- Developed a modern frontend with Next.js, Tailwind CSS, Redux Toolkit, and Axios, ensuring responsive UI, efficient state management, and smooth API integrations for real-time transactions.

TechTrail | Typescript, NextJs, Redux,Tailwind,Express, MongoDB

https://techtraill.vercel.app

- Built TechTrail, a full-featured Learning Management System (LMS) enabling users to sign up, enroll in paid courses, and track their learning progress.
- Implemented secure authentication with JWT, developed a responsive UI with Next.js and Tailwind CSS, and integrated APIs using Express, Axios, and MongoDB for seamless data flow and performance.

Open-Source Contributor OnlyDust

- Actively contributing to open-source projects, collaborating with developers worldwide.
- Engaging in code reviews, feature development, and issue resolution across various projects.

EDUCATION

Univerisity of Nigeria,Nsukka.   2018 -2024
Bachelor of Engineering in Metallurgical and materials engineering.
